ARMY NOTES.

Washington, June 18.—It is said at the War Department that unless casualties in the army during the next academic year are greater than they have been during the one just passed, not more than one-fourth of about 145 in the next class to graduate can be commissioned.

Resignation of General Grant.

General Grant's resignation of the position of Major-General of the Army, which he has just accepted, is said to be a foregone conclusion.

China's Telegraphy.

New York, June 18.—The Herald's special says: The Chinese Government recently sent instructions through their embassy at Washington, to the Chinese Educational Commissioner, in this city, to establish a department of telegraphy and operations will be commenced next week. At present there is no telegraphic communications in the Chinese Empire except between a few of the larger places on the coast. It is understood that the communication is solely in English or other tongues than Chinese and that no system has yet been devised by which the Chinese can communicate by wire in their own language. The project, as reported here, contemplates the establishment of a governmental system to extend to all of the empire with operators who will be thoroughly instructed alike in theory, practical operation and electric telegraphy. It will be necessary to prepare a system of telegraphic signs and symbols which shall indicate the Chinese characters. It is proposed to have the students here in learning the art to use the ordinary system of this country, and as they are well acquainted with English they could in their country either telegraph in English and translate in Chinese or use the proposed Chinese telegraphic symbols. The students selected for the telegraphic class are those who are most advanced in their studies in this country and who are shortly to return to China. G. B. Hubbell, who has recently resigned the position of Hartford manager of the Western Union Company, has been engaged as instructor.

EXPLOSION.

Tunis, June 18.—An explosion occurred on board her Majesty's iron clad, Monarch, while preparations were making for torpedo practice. An officer was killed and several sailors injured.

FRENCH TELEPHONE TRANSACTIONS.

London, June 18.—Duchateau, manager of the French Telephone Company, has started from Paris for Brussels to represent French promoters of the Telephone Company with a capital of ten million francs, to be started there under Belgian, English, American and French auspices.

RUSSIAN ARCTIC EXPEDITION.

New York, June 18.—M. Sibeckoff is indefatigable in his endeavors to open the Arctic regions to commerce and navigation has fitted out three sledge expeditions which are to take food, clothes and coal to the Oscar Dykeson and the Northland. His two ships are now frozen up in the Arctic Ocean and of which nothing has been heard since the early part of last year. The steamer Nordenskjold is being prepared at Gathenburg for a new voyage to the mouth of the Yenesei River.

TRIAL OF McKEEVITT AND McGRATH.

Liverpool, June 18.—McKeevitt and McGrath, charged with attempting to blow up the Town Hall, were examined by the government today. The prosecuting solicitor said he did not intend to go into the question of Fenianism as the case would stand on its own merits. McKeevitt, he said, had denied any connection with the Fenians, but the regular delivery at his lodgings of the Irish World with his printed address thereon, as though he were a regular subscriber would be proved. An analytical chemist had ascertained that the bomb used in the attempt was filled with nitro glycerine. McGrath's landlady, he said, would prove that he (McGrath) possessed iron piping similar to the bomb and that he had been secretly engaged in hammering something.

FRANC-ITALIAN TROUBLE AVERTED.

Marseilles, June 18.—At midnight as the troops which had just disembarked on their return from Tunis were marching through Rue Republicaines were heard from the Italian National Club. A crowd surrounded the club house and demanded the removal of the Italian escutcheon from the building. The commissary of police advised its removal, but the president of the club peremptorily refused. The perfect of police endeavored to calm the crowd and sent out for gen d'armes, but before they arrived the deputy mayor and a municipal councillor, in spite of the protests of the perfect, tore down the escutcheon. The crowd afterwards dispersed and the approach to the club house was occupied by troops.

BERNHARDT'S OPINION OF AMERICA.

Paris, June 18.—An interview with Sara Bernhardt is published in which she calls America a grand country, colossal, extraordinary, fabulous. The audiences at American theatres are brilliant. Such rich toilets! The ladies know how to dress, the public understands very well. Their appreciation is quite warm and sympathetic. The women are charming but the men are not so nice as the women.

COMPENSATION.

Madrid, June 18.—The statement is true that the King sent word to the Spanish Minister at Constantinople that he will gladly receive in his dominions all the persecuted Hebrews to compensate the race for the severities of his predecessors toward them.

ONLY A FRIENDLY REMINDER.

Liverpool, June 18.—A London correspondent of the Liverpool Post referring to the report that a dispatch had been sent from the British foreign office to the American government calling attention to the operations of Fenians in New York, says the dispatch is of a friendly character. It recites atrocious passages in O'Donovan Rossa's paper and submits that they go somewhat beyond the widest limits of the freedom of the press and makes no demand upon the United States as to any particular action.

Fire Fend.

Cincinnati, June 18.—Between 3 and 11 this morning a fire destroyed the Miami Oil and Soap Works owned by J. J. Gest, on Fifth street. Loss \$500,000, insurance \$60,000.

Chicago, June 18.—At Appleton, Wisconsin, yesterday evening W. W. Hutchinson's woolen factory was totally destroyed, the firemen being powerless on account of the strong gale and the inflammable nature of the material. Several people narrowly escaped from the burning building. One Nelson fainted and fell from the second story and died while being taken home. August Bathie is missing and supposed to have perished. Three hundred persons are out of employment.

J. F. Atkinson's chair and bedstead factory was also burned. Loss \$40,000 to \$50,000. Insured for \$16,000. Hutchinson's loss \$55,000. Insured for 24,500.

Goodyear Gone.

New York, June 18.—William E. Goodyear, who died in East Haven, Conn., yesterday, aged fifty, rode on horse back from the Atlantic to the Pacific in fifty two days. He was connected with the survey between California and Mexico.

Deviltry Thwarted.

Quebec, June 18.—Attempts to burn the two Roman Catholic churches of St. Saviour have been discovered and thwarted.

Not Suicide, but Murder.

Denver, June 18.—The supposed suicide of Mrs. Schott on Lawrence Street now has the appearance of murder, for her watch and chain and her other jewelry are missing and her trunk was broken open. The coroner's jury have not yet completed their investigation.

Hoops Hoops 'Em Up.

Chicago, June 18.—The Tribune states that Thomas Hoops, foreign freight agent of the National Dispatch fast freight line, has disappeared with accounts \$10,000 short. Hoops character had not been spotted, he having left several other positions under a cloud and his reputation never has been the best.

Demoralized Freight Rates.

St. Louis, June 18.—Eastern freight rates have become utterly demoralized and grain is taken to-day, it is asserted at 15 cents per hundred and flour at 32 cents per barrel to New York. Agents are discussing the situation to-day.

Moon Murder Verdict.

Denver, June 18.—The coroner's jury this morning rendered a verdict that John E. Wilcox, alias Jim Moon, came to his death from being shot by a pistol fired by Clay Wilson.

Americans are operating in mining very extensively in Old Mexico. A cargo of 11,000 pounds of very valuable ore passed through Las Vegas via the Wells-Fargo express billed to Philadelphia. It was brought to El Paso by wagon trains from the famous Batipobilla mine in Chihuahua, now operated by "Boss" Shepard of Washington and other eastern capitalists. Some of it was native silver and all of it very rich, which may be inferred from the fact that the owners could afford to ship it four hundred miles by wagon trains and nearly 2,700 miles by rail for reduction.

CHURCH SERVICES.

CATHOLIC CHURCH.

Sundays, first mass at 6:30 a. m.; high mass at 9:30 a. m. During the week, low mass at 6:30 a. m.

Methodist Church.
